### DISCLAIMER

<sup>0)</sup>Uses sensors. <sup>1)</sup>Safety feature. <sup>2)</sup>Driver Assistance feature.

Please note: Driver-assist features are supplemental and do not replace the driver's attention, judgement and need to control the vehicle. Note: A rear-facing child seat should never be placed in the front passenger seat when the Ford vehicle is equipped with an operational front passenger's airbag.

Note: Navigation is available with selected Driver Assist packs on all vehicles with SYNC 4.

Note: Full SYNC 4 smartphone integration is only available with iPhone 5/Android 5.0 (Lollipop) or higher. Some SYNC 4 functions require a data connection, so mobile data charges will apply. To check whether Apple CarPlay and Android Auto are available in your market, please check their official websites for the latest information.

\*Don't drive while distracted. Use voice-operated systems when possible; don't use handheld devices while driving. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones.

Note: Ford Connected Navigation is an optional subscription, and complimentary for the first 12 months\*\*) Following the initial 12-month Connected Navigation trial period a subscription fee is payable. Connected Navigation uses connected vehicle data (such as driving and location data) shared through the FordPass Connect. Data sharing with Ford can be managed through the in-vehicle settings, but this may impact the services available. \*\*From warranty start date.

<sup>ø</sup> Roof down. All dimensions (shown in mm) are subject to manufacturing tolerances and refer to minimum specification models and do not include additional equipment. These illustrations are for guidance only.

The MIRO is the mass of the unladen vehicle, including an allowance for the driver (assumed 75 kg) and a 90% full fuel tank. The MIRO is calculated with the fresh water tank empty. If you travel with water in the freshwater tank then the User Payload will reduce accordingly. All masses and weights are subject to a tolerance of +/-5% complying with the European Directive 1230/2012. All motorhomes in this brochure conform to the European Standards for Motorhomes: EN1646 -1, EN 721, EN1949 and EN 1648-2. They have also been granted European Whole Vehicle Type Approval to EC Directive 2007/46. We would strongly advise against modifying vehicles in any way that could affect the validity of these Standards or Directives.

\*Even when towing the gross train mass (GTM) must not be exceeded.

NB: It is the responsibility of the vehicle operator to ensure their vehicles are legally compliant for road use.
